## Goals

To establish understanding between people and communities

To identify actions each might take personally and collectively to address issues

To establish statewide network of presenting partners to extend opportunities for people to connect and share ideas around this issue

What are your concerns for an equitable future?  
What topics would you like to have addressed by Changing the Legacy of Race & Ethnicity?

Changing the Legacy of Race & Ethnicity is a conversation series initiated by Colorado Humanities and implemented with partners to encourage understanding and discussion about the legacy of race and ethnicity in America, and how we can work together to make changes now for a more just future.

This program was prompted by summer 2020 events, when several violent acts of racism sparked an awakening in America and the streets were filled with passionate advocates who demanded the end of police brutality and systemic racism.

We commend all Coloradans' efforts to find their own ways to contribute to the struggle for justice and human rights. Please join us as we redouble ours. Colorado Humanities strives to make our programs more relevant, accessible, and inclusive. Your participation and support are effective steps you can take to endorse learning and discussion about the issues of race and ethnicity in Colorado, and are vital to the success of the Changing the Legacy of Race & Ethnicity.
